

Software specifications

Chapter number	Software required (With version)	Free/Proprietary	If proprietary, can code testing be performed using a trial version	If proprietary, then cost of the software	Download links to the software	Hardware specifications	OS required
	QGIS	free			qgis.org		
	Postgis	free			postgis.net		

Detailed installation steps (software-wise)

The steps should be listed in a way that it prepares the system environment to be able to test the codes of the book.

1. QGIS:
 - a. Download and installation instructions available at <https://www.qgis.org/en/site/forusers/download.html>
2. PostGIS
 - a. Installation instructions available at <http://postgis.net/install/>

If this is for in house testing the easiest way I think is to just download <http://live.osgeo.org> virtual machine.
